Lead Time for standard product is defined as:

Stock: Is available for delivery on a daily basis for quantities of 2 or less. For any orders of 3 or more, please place order 2 – 3 business days in advance of required delivery date.

Stock-1: Is available for delivery on a daily basis for a quantity of one. For any orders of 2 or more, please place order 2 – 3 business days in advance of required delivery date.

Numerical: Expressed in weeks prior to required delivery date.

Multiple Tank Orders: The tank with the longest lead time applies to the entire order.

Liquid Level is measured from floor to outlet flow of each compartment.

GPI expresses Gallons Per Inch for each compartment.

Volumes are expressed in Gallons.

Inlet Invert is measured from bottom of tank to bottom of PVC Pipe.

Outlet Invert is measured from bottom of tank to bottom of PVC Pipe.

Height is measured from bottom of tank to top of cover.

Depth of Cover is maximum amount of cover over top of tank.

All Deliveries are on a First Come – First Serve Basis.
